Product Designer with 5+ years of experience designing complex digital products across fintech, SaaS, and consumer platforms. I specialize in transforming complex workflows into intuitive user experiences through systems thinking, interaction design, and scalable design systems.

Experience

Product Designer @Fikrah Ventures

Jan 2025-Present Dammam, Saudi Arabia

- Designed key investment experiences across responsive web and mobile, helping simplify complex financial workflows for beginner investors.
- Designed and scaled MODREK's bilingual design system, supporting Arabic/English, RTL/LTR, responsive layouts, and light/dark themes, creating a shared foundation for designers and engineers.

UI/UX Designer @WeCodeForYou

Oct 2022-Dec 2024 Cairo

- Collaborated with the design team to develop features tailored to clients and their users' needs like gamifying user experiences & adding user-centric AI features
- Led comprehensive user research across diverse industries, such as tourism, sports training, real estate and AI chatbots
- Led end-to-end product design from discovery through high-fidelity prototyping, translating user research into validated product experiences.

Education

German University in Cairo (GUC)

2016-2021 Cairo

More Experience

Part time UI/UX Designer @ O-projects

August 2019 - August 2021 (2 years) Cairo

- Designed user experience and interface designs for diverse kinds of web & app platforms. (More than 15 projects ranging from payment apps to entertainment apps) Including the web design of Froneri, an international Ice-cream brand.
- Provided mentorship to interns, enhancing their UX skills both technically and theoretically
- Conducted competitive audits & benchmarks, turned wireframes into complete interface design. And built style guides for several applications and websites that needed visual identity.

Freelance UI/UX Designer

Across different periods

- Met with clients to understand their expectation and brainstormed features with them
- Worked on all UX design phases, from research to prototyping & testing.
